Manistee Middle School students discuss Olive Moody's book "The Chronicles of Cadaver College - The Book of Ornis". Students also had the opportunity to discuss the book with the author and write a review on it.

MAPS Middle School students file book review on 'The Chronicles of Cadaver College'

FROM STAFF REPORTS

MANISTEE — The Manistee Area Public Schools Middle School students of Sandra Slawinski recently reviewed the fantasy fiction book "The Chronicles of Cadaver College - The Book of Ornis" by Olive Moody.

Students were asked to review the book by Moody who is from Ireland. She wanted the perspective of American students about her book. This is the book review the students presented

"The Chronicles of Cadaver College is an action packed book about the adventures of a boy in a ghost world.

Olive Mooney captures the attention of young readers by adding new life to old ideas. The author adds her own unique spin on the idea of ghosts.

Simon DeBruin, a 12-year-old, wakes up to find himself dead, living in a ghost world. Simon is faced with a nearly impossible task, kill the sea-witch Halbizia. During this adventure Simon finds an unlikely companion, Fi. Things take a turn for the worse and Simon must figure out how to save the ones he loves.

We would definitely recommend this book to anyone who enjoys a good adventure. We can't wait for the highly anticipated sequel. The Chronicles of Cadaver College is a book that you will not be able to put down. This book will definitely make you smile."

Students also corresponded with the author about the book and what prompted her to write it. It proved to be a very positive project and one that the students enjoyed taking part in.
